Art Unit: 1762

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bret Field on 9/28/2007.

In the claims:

In claim 1, line 7, after "element" insert -- different from said gasket --; and
in line 11, after "element" insert -- different from said gasket --.

In claim 53, line 4, after "element" insert -- different from said gasket --; and
in line 8, after "element" insert -- different from said gasket --.

In claim 57, line 6, after "element" insert -- different from said gasket --; and
in line 10, after "element" insert -- different from said gasket --.

2. The following is an examiner's statement of reasons for allowance: reasons as discussed by applicants in the response, particularly noting support for the amendment with respect to the plasma at the end of paragraph [0072] on page 24, as well as [00109], such that the above amendment is consistent with that disclosure in view of configurations as illustrated in figures 1 & 2, such that plasma treated surfaces constitute both the gasket surface & exposed surface area in the interior of the array assay chamber as now claimed, where the plasma treated interior surfaces are necessarily different from the gasket surface, which is part of the backing element, which plasma treated configuration is neither taught

nor suggested by the art of record. It is noted that since all of the obviousness double patenting rejections depended on the applied art for appropriate plasma treatments, the president claims have also been differentiated from those of the copending cases discussed therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
